Course Description

This course traces the history of German cinema form its beginnings in the “cinema of attractions,” to its heyday. We will pay particular attention to the cinema of the Weimar Republic, Nazi cinema and the films of the immediate aftermath of WWII. We will confront this history of cinema with the long and rich history of German thought on cinema, its political valences and social potential.

Course Requirements

15-20 page paper due on March 13 at noon. Topic open, but please consult with me about your project at some point before the last week of classes.
