

*Do you or your loved ones have **Alzheimer's Disease?***

*Please help researchers of Stanford University learn more about a new **interactive phone system** for assessing memory change.*

We are looking for volunteers who:

- Have mild to moderate Alzheimer's disease
- Are age 65 or older
- Speak English
- Have a study partner who can attend 4 clinic visits
- Have no history of strokes
- Are willing to participate over a 6-month period

There is a total possible compensation of \$250 at the end of the study for the participant as well as the study partner.

For more information, or to find out if you are eligible to volunteer, contact:

Shannon Hsu at (650) 849-0222
